

President & Members of the Board of ISU branches

Can Norwegian students become President or board members of the branches?

I think At least there should be a regulation that President should be an International student. Because only international students will be able to understand the difficulties, problems in international students really facing during their stay in Norway or any other foreign country especially for the first time.

And I think we should arrange some activities with reasonable prices for them.

Housing contracts during vacations

In BODØ once we stop the housing contract with the school we are not allowed to sign a new contract until 4 months. So I think this rule has to be change.

When students go for summer vacation otherwise they have to pay 2 months rent without staying.

Any way Quota students will not get their loan during the vacation period.

Some helping scheme for self financed students (Other than quota or any other scholarship receipts from Norwegian Govt.)

There are some students who have come as self financed or with scholarships from their home country. Then their scholarships will not adequate to survive here or they will not have any other way to complete their second year of studies.

At this situation can we help them by some how or other way?

If students have scholarship for the 1st year, from their home country, then can they ask financial support from Quota scheme for the second year? Because due to the rule that” students can’t apply for quota scheme from Norway “they face difficulties to complete their second year.
